### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification, before "BACKGROUND OF INVENTION", insert "CROSS REFERENCE TO RELATED APPLICATION ¶ The present application is a Continuation of application serial no. 09/522,106, now U.S. Pat. No. 6,337,077."

### ***Terminal Disclaimer***

The terminal disclaimer filed on May 10, 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US. Pat. No. 6337077 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### ***Allowable Subject Matter***

Claims 18-27 are allowed. The following is an examiner's statement of reasons for allowance: The obvious double patenting rejection made over U.S. Pat. No. 6337077 as indicated in the previous Office action dated February 13, 2004 is withdrawn in view of the terminal disclaimer filed on May 10, 2004. The claim rejection made under 35 U.S.C. § 112, first par. as indicated in the same Office action is withdrawn in view of the cancellation of claims 28-37, which were the only claims subject to the rejection under § 112.

Although U.S. Pat. No. 5840701 teaches that L-2-oxothiazolidine-4-carboxylic acid (procysteine) is a GSH (glutathione) precursor and can enhance body's natural antioxidant capacity, the reference also indicates that it is unable to deal with the higher levels of free radicals encountered in injury and disease, and is rapidly consumed by the body. See col. 2, lines 56 – 61. Furthermore, there is no teaching of topical use of the compound. It is viewed that, although procysteine is well-known pharmaceutical art, the claimed method of topically using the compound in protecting skin from light-induced aging and/or environment-related stress would not have been obvious to one of ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gina C. Yu whose telephone number is 571-272-0635.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sreeni Padmanabhan can be reached on 571-272-0629. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
